Education

Rajiv Gandhi Institute of Petroleum Technology

B.Tech. in Electronics and Communication Engineering

Amethi, Uttar Pradesh, India

Aug 2023 – Present

Kendriya Vidyalaya BSF School

Higher Secondary Education (CBSE) – 92%

Bikaner, Rajasthan

June 2020 – July 2022

Technical Skills

Coding Languages: Python, C++, JavaScript (ES6+), SQL

Frontend: React.js, HTML5, CSS3, Bootstrap

Backend: FastAPI, RESTful APIs, JWT Authentication, WebSockets

Database: PostgreSQL, MySQL

Developer Tools: Git, GitHub, VS Code, Docker, AWS, Linux, Postman

Core Competencies: Data Structures & Algorithms, Object-Oriented Programming, Database Design, System Design, Agile Development, Responsive Web Design, API Optimization

Experience

Impressico Business Solutions 🌟 Certificate

Summer 2025

Summer Intern - Full Stack Developer

- Developed **3 core features** for Vision Park web application — admin authentication system, payment processing module, and refund management workflow — enhancing platform functionality for parking slot management.
- Implemented **secure authentication** using JWT with role-based access control, enabling admins to process payments to super admins with automated transaction tracking and confirmation notifications.
- Built **refund initiation workflow** with 3-stage status tracking (pending/approved/refunded), allowing admins to process cancellations and send automated refund confirmations to users.
- Collaborated with cross-functional teams in an **Agile environment**, participating in daily stand-ups and sprint reviews while improving business communication and client interaction skills.

Projects

JobBridge - AI-Powered Recruitment Platform | *React.js, FastAPI, PostgreSQL, JWT, Gemini API, WebSockets* 🐙 **April 2026**

- Developed JobBridge, an AI-powered recruitment platform using **React.js, FastAPI, PostgreSQL, JWT Authentication, and Gemini API**, supporting **100+ candidate profiles** with secure resume uploads, role-based access control, and personalized job discovery.
- Built a **resume parsing and job-matching engine** that analyzed **150+ resumes** and extracted key skills, education, and experience details to generate tailored career-page recommendations through AI-powered processing and web search integration.
- Engineered and optimized **20+ RESTful APIs** for authentication, resume management, feedback tracking, and HR communication, achieving **sub-300 ms average API response time** for core database operations and candidate search workflows.

SkillBridge - AI-Powered Resume ATS Analyzer | *React.js, FastAPI, Gemini API, YouTube API* 🐙

Jan 2026

- Built AI-powered resume analysis tool using **Google Gemini API** to evaluate resumes against job descriptions, generating **ATS compatibility scores** and identifying **skill gaps** across 5 categories (technical, soft skills, experience, education, projects).
- Integrated **YouTube Data API v3** to recommend curated learning playlists and suggest relevant courses based on identified skill gaps, creating personalized upskilling paths for users.
- Designed interactive dashboard with **6 learning metrics** (daily progress, skill mastery, course completion, quiz scores, streaks, weekly goals) using **Chart.js** for data visualization.

Campus Connect - Student Campus Platform | *React.js, FastAPI, PostgreSQL, Google Maps API* 🐙

July 2026

- Developed full-stack platform with **8 integrated modules** (Student Registration, Travel Assistant, PG/Hostel Finder, Food Deals, Marketplace, Essential Services, Cost Estimator, Smart Dashboard) for campus life management.
- Integrated **Google Maps Directions API, Distance Matrix API, and Places API** to provide real-time travel estimates, nearby PG/hostel listings, and essential services (hospitals, ATMs, gyms, medical stores) with distance and contact information.
- Implemented **budget-based recommendation engine** analyzing 5 expense categories (accommodation, food, transport, utilities, misc) to help students plan monthly expenses.

Leadership & Volunteering

IEEE RGIPT Student Branch

Nov 2024 – Present

Audit and Reporting Head

Amethi, India

- Led **8-member team** managing documentation for **50+ technical events** with **1,200+ attendees**, achieving **100% compliance** with IEEE standards and submitting **75+ reports**.
- Spearheaded documentation strategy for **3 major fests** with **400+ external participants** from **12+ institutions**, creating standardized templates.
- Conducted **6 technical workshops** for **30+ new members** on Git, LaTeX, and technical writing.
- Represented branch in **4 Zonal IEEE meetings** with **50+ delegates**.

Alumni Committee

July 2025 – Present

Committee Head

Amethi, India

- Led **7-member team** coordinating with **50+ alumni** from Microsoft, Google, Amazon, organized **4 guest lectures** with **90% attendance**.
- Established **alumni mentorship program** connecting **25 students** with **10 industry mentors**.

Honours & Certifications

- Professional Certifications:
- Web Development Bootcamp - Udemy (2024)
 - JavaScript Algorithms and Data Structures - freeCodeCamp (2024)
 - Git & GitHub Mastery - Coursera (2024)
 - AWS Cloud Practitioner Essentials - AWS (2024)
- Notable Achievements:
- 2nd Place (Top 5%) - Hackathon with 45+ teams (2025)
 - IEEE RGIPT Outstanding Contributor Award - Q1 2025
 - Dean’s List - Academic Year 2023-24

Additional Information

- Languages: English (Fluent), Hindi (Native)
- Interests: Full-Stack Web Development, AI/LLM Integration, Cloud Computing, Open Source, System Architecture
- Workshops: AWS Cloud Practitioner (2024), Cybersecurity Fundamentals (2024), Agile Methodology (2025)
